### TECHNICAL SKILLS

---

**Languages:** JavaScript (ES6+), TypeScript, Python

**Frontend:** React.js, Next.js 15 (App Router), Redux Toolkit, Tailwind CSS, Shadcn UI, HTML5, CSS3

**Backend & APIs:** Node.js, Express.js, RESTful APIs, JWT Authentication, NextAuth.js, Zod Validation

**Databases & Caching:** MongoDB, Mongoose (Aggregation Pipelines), Redis

**DevOps, Cloud & Streaming:** Docker, AWS S3, BullMQ (Async Queues), Video Transcoding (FFmpeg, HLS), Cloudinary

**Tools & Platforms:** Git, GitHub, Postman, VS Code, Linux/Bash, Vercel, Render, Resend API

### PROJECTS

---

**DivyanshTube** | *React, Node.js, Express, MongoDB, Redis, BullMQ, AWS S3, FFmpeg, HLS* | [\[Live Demo\]](#) [\[GitHub\]](#)

- Engineered a scalable video streaming platform supporting multi-resolution video uploads, adaptive stream playback, and channel interactions.
- Architected an asynchronous video processing pipeline utilizing **BullMQ** and **Redis** queue workers to handle heavy FFmpeg processing in the background without blocking API threads.
- Implemented dynamic video transcoding using **FFmpeg** to convert raw uploaded videos into adaptive HTTP Live Streaming (**HLS**) segments (.m3u8 format) for low-latency playback.
- Architected a hybrid storage infrastructure utilizing **AWS S3** for raw/transcoded video storage and **Cloudinary** for optimized image assets.
- Designed high-performance REST APIs with **JWT** dual-token (Access/Refresh) authentication, **MongoDB Aggregation Pipelines** for analytics, and pagination for user feeds.

**Mystery Message** | *Next.js 15, TypeScript, NextAuth, MongoDB, Tailwind CSS, Zod, Resend* | [\[Live Demo\]](#) [\[GitHub\]](#)

- Developed a full-stack anonymous messaging application using **Next.js 15 (App Router)** and **TypeScript** for strict end-to-end type safety.
- Integrated secure credential-based authentication utilizing **NextAuth.js** paired with custom **Mongoose** schemas for session persistence.
- Engineered automated email verification and OTP delivery pipelines using **Resend API** and custom serverless API routes.
- Implemented robust request validation using **Zod schemas** on both client and server sides to protect backend routes from malformed payloads.
- Built a responsive dashboard UI with **Shadcn UI** and **Tailwind CSS**, featuring real-time message toggling and dynamic toast notifications.

### EDUCATION

---

**Samrat Prithviraj Chauhan Government College, Ajmer / MDSU**

*Bachelor of Science (B.Sc.) in Mathematics*

Ajmer, Rajasthan

*Expected May 2027*

- Relevant Coursework:** Object-Oriented Programming, Data Structures & Algorithms, Linear Algebra, Real Analysis, Discrete Mathematics
